AZUL

PROMO COLLECTION

Setup: Replace a standard factory by the Special Factory of your choice.

THE RAINBOW FACTORY

When you pick tiles from the Rainbow Factory, you may only take one tile of each different color instead of all tiles of the same color. Move the remaining tiles to the center of the table. For each tile picked, add it to a pattern line or to the floor line of your player board according to the base rules.

THE BIG FACTORY

At the beginning of each round, fill this factory with 6 tiles instead of 4.

As long as there are tiles on the other Factory displays, you may not pick tiles from a Big Factory.
