

Bairnsfather & Kille

are pleased to unveil our latest catalog of furniture and furnishings for stylish homes, embracing all things in both classic design and modern sensibilities.

We employ only the most skilled craftsmen and scour the globe for new materials, offering only the finest of wares to delight, comfort and impress.

Our latest innovation hails from the equatorial tropics: African Teak. This beautiful hardwood is drawn from hidden groves where ancient practices—so it is claimed!—have imbued the wood with a spirit which radiates beauty and vigor.

It is said that a single piece of exotic "iroko" wood can revive a home's flagging spirit, just as the arrival of a favored guest might uplift one's own soul! It certainly brightens our hearts.

Bairnsfather & Kille are proud to be the exclusive importer of this new miracle wood, fashioned into items of elegance and purpose for your home. We build to order and deliver to your door.
