## **Days of Wonder Announces *Ticket to Ride®: Track Switcher***

*A brain teaser puzzle featuring Ticket to Ride*

**Paris, France – June 2, 2021.** All aboard for puzzle fun! Days of Wonder and Mixlore are excited to announce the release of *Ticket to Ride: Track Switcher*, the first brain teaser puzzle game featuring Ticket to Ride.

Welcome to the 1900, the Age of the Locomotive! Railways connect every major city in the country, allowing people to travel considerable distances in just a few days. Trains are more popular than ever before and the railyard continuously bustles with activity as engineers and yard workers scramble to move cars onto their departure tracks. As a Railyard Manager, you have an essential role to play.

In *Ticket to Ride: Track Switcher*, players will use cognitive skills like logic, spatial reasoning and sequencing to direct locomotives and shift trains into their correct positions. Players will direct locomotives and shift trains into their correct position based on the puzzle card to ensure every train will leave on schedule. Players will need to be precise: unnecessary moves will make them lose precious time!

“The *Ticket to Ride* range of games have grown significantly in diversity and popularity over the last decade, and seeing a version that challenges players with logic puzzles is a delight.” Says Adrien Martinot, head of Days of Wonder. “The game is exceedingly fun to move the little locomotives in the train yard, and as you progress, the puzzles become more challenging. I admit, I had a hard time solving the last ones!”

*Ticket to Ride: Track Switcher* is a standalone game designed for a single player. It includes 1 game board with a tray, 40 puzzle cards, 5 wagons, 2 Locomotives, 2 Broken Tracks and 1 rulebook. The game is expected to be available in October worldwide at a suggested retail price of 24,99€/25.00\$. *Ticket to Ride: Track Switcher* will be available in the following languages: English, French, German, Spanish, Dutch, Finnish, Norwegian, Swedish, Danish, Polish, Lithuanian, Estonian, Latvian.
