

DICE FORGE REBELLION

THE WHEEL OF FORTUNE

Effect: ☼: receive divine blessings once except in this one case: **before rolling** all the dice, pick and declare a roll outcome for each dice among all the likely outcomes on your dice (be sure to name a kind of dice face but not a resources outcome). After applying your dice powers and putting them back in your Inventory :

- Win 8 ☼ if only one out of the two faces matches the declared outcomes.
- Win 20 ☼ if both faces match the declared outcomes.
- Don't win additional ☼ if neither matches the declared outcomes.

NB: applying a declared outcome thanks to a Mirror face doesn't change the Mirror face kind. ☼ Therefore, you need to declare the Mirror face before so you can get bonus ☼. The same applies to every other special face.

Example:
Before rolling the dice, **Valentin** declares the outcome will be a ☼ and a ☼ face.
After rolling the dice, only one out of the two face matches the outcomes declared by **Valentin**. Therefore he only wins 8 ☼ in addition to the dice powers received from both dice.
