► EFFECTS

Reminder: You can only have a maximum of 8 Troops on your rack. If you were to exceed this limit with the effect of a special base, you cannot apply this effect.

You may draw 1 Troop from your reserve and place it on your rack.

Point to 1 Troop on your opponent's rack, without looking at it. Your opponent lays it down, facedown, and cannot place it on their turn. At the end of their turn, your opponent places the Troop back on their rack: it's available again.

Note: The lying Troop still counts towards the maximum of 8 Troops on your rack.

► PLACEMENT RESTRICTIONS

Reminder: Both of these special bases have **placement restrictions**, which occur **before** placing the Troop.

Only Troops with a strength of 4, 5, 6, 7, or a joker 🃏 may be placed on these special bases.

Troop effects are not applied on this special base.
