

FIRST GIANTS

HOBBY NEXT

These tokens **replace** the News tokens from the First Giants base game. You should use either all 8 tokens from the base game or all 8 alternative HOBBY NEXT tokens; do not mix the two groups of tokens. These tokens follow different rules from those of the base game, as follows:

If you are **the first player to display a fossil of a specific Size or from a specific Family**, immediately take the corresponding News token from the supply. If the fossil you display is the first one of that Size and Family, take both tokens.

If another player manages to display **more fossils of that type than you** (regardless of the sets they belong to), they steal the matching News token from you.

At the end of the game, Family tokens are worth 3 victory points, and Size tokens are worth 5 victory points.

ESSEN

This token can be **added** to either group of News tokens for First Giants. Its specific rules are outlined below. Do not apply the standard rules for News tokens to this token:

If you are **the first player to start a set**, immediately take this News token from the supply.

If another player manages to have **more sets** than you (regardless of which ones), they steal this News token from you.

This token is worth 5 victory points at the end of the game.

GENCON

This token can be **added** to either group of News tokens for First Giants. Its specific rules are outlined below. Do not apply the standard rules for News tokens to this token:

If you are **the first player to display a fossil from each Family**, even if they belong to different sets, immediately take this News token from the supply.

This token cannot be stolen from you.

This token is worth 5 victory points at the end of the game.

CANNES

This token can be **added** to either group of News tokens for First Giants. Its specific rules are outlined below. Do not apply the standard rules for News tokens to this token:

At the end of the game, the player with **the most amber** takes this News token from the supply.

In the event of a tie, no player takes this token.

This token is worth 5 victory points.

FIRST GIANTS

CHARITY EVENTS

This token can be **added** to either group of News tokens for First Giants. Its specific rules are outlined below. Do not apply the standard rules for News tokens to this token:

Whenever you take a card with a  or  effect, you **may** take this News token from the supply or steal it from the player who currently has it. If you already had it at the start of your turn, nothing happens.

If you take or steal this News token, you immediately earn 2 victory points. Additionally, during the current turn, all gains received by your opponents (amber, points, etc.) are **doubled**.

If none of your opponents can gain anything (for example, if none have a  effect), you **cannot take or steal this News token**.

This News token does not earn you any points at the end of the game.

BGG

This token can be **added** to either group of News tokens for First Giants. Its specific rules are outlined below. Do not apply the standard rules for News tokens to this token:

Whenever you **display at least 4 fossils in a single turn**, you may take this News token from the supply or steal it from the player currently in possession of it.

If you already had it at the start of your turn, nothing happens. Otherwise, after you complete your current turn, you **take an extra turn**, during which you may take one action of your choice: play 1 marker or retrieve your markers; it does not have to be the same action taken for your original turn. At the end of this extra turn, the game continues from where it left off, and the player to your left takes their turn as normal. This News token does not earn you any points at the end of the game.

DICE TOWER

This token can be **added** to either group of News tokens for First Giants. Its specific rules are outlined below. Do not apply the standard rules for News tokens to this token:

Whenever you take **another News token from the supply**, you may also take **this** token directly from the supply or steal it from the player currently in possession of it.

If you already had this token at the start of your turn, nothing happens. Otherwise, you immediately receive 2 victory points.

This News token does not earn you any points at the end of the game.

OTHER EVENTS

These tokens can be **added** to either group of News tokens for First Giants. We recommend using at least 2 and at most 6 of these tokens.

The specific rules for these tokens are outlined below. Do not apply the standard rules for News tokens to them.

Example :

Laura displays 2 red fossil, 1 blue fossil, and 2 purple fossils during the same turn.

She immediately takes the Comet News token from the supply and places it in front of her.

If you are the first player to display **3 fossils in the same turn that match the colors shown on any of these tokens**, immediately take the corresponding News token from the supply. You can claim more than one of these tokens in a turn and the same fossil can be used to meet the criteria of multiple tokens.

This token cannot be stolen from you.

This token is worth 3 victory points at the end of the game.
