

(EN) Press Release UNLOCK! SHORT ADVENTURES – The Path of the Katana | SPACE COWBOYS

SPACE COWBOYS announce the release of a new addition to the Unlock! Short Adventures collection titled The Path of the Katana on June 19th 2026.

Paris June 2026 | Set in the year 1214 during the era of feudal Japan, the story follows Asa, a young samurai currently in exile. Following the theft of the sacred sword belonging to your clan and the subsequent loss of your honor, a letter from the past alters your destiny. Your former mistress is in peril. You must infiltrate her domain to save her and reclaim your status by following the way of the sword.

This adventure focuses on:

- themes of infiltration and honor within a historical Japanese setting.
- It represents an ideal format for those looking to discover the world of Unlock! or for players seeking an intense and accessible gaming experience.

The Short Adventures are designed to be as rich and engaging as the scenarios found in the larger boxes while utilizing the same free Unlock! application available through the App Store and Google Play. They incorporate every element that contributed to the success of the series including cooperative gameplay, puzzles, and digital machines to solve. These experiences provide the full Unlock! experience in a more concise format with play times lasting between thirty and forty-five minutes. Each adventure is housed in an individual portable sleeve and offers a specific difficulty level, a unique theme, and original mechanics. These games are completely independent and do not require the destruction of any components during the course of the game.

The Unlock! Short Adventures range continues to expand the brand following the release of the previous boxed set titled Unlock! Enchanted Adventures on October 10 2025.
